

Lasting changes and inequality of everyday family life during the Corona pandemic

Initiative: Corona Crisis and Beyond – Perspectives for Science, Scholarship and Society (beendet)

Bewilligung: 09.12.2020

Laufzeit: 1 Jahre 6 Monate

The aim of this research project is to investigate the lasting effects of the corona pandemic on inequality and the everyday life of families from different social classes. Taking the Marienthal-Study (Jahoda, Lazarsfeld, Zeisel) as reference, the situation between two contrasting municipalities will be compared. The study will apply a mixed mode design with standardised online interviews, analyses based on regional statistics, an additional qualitative approach. A film project is envisaged to accompanying the study and make its findings accessible for a broader public.
