

Towards a Response-able Culture of Objectivity: Corona Discourses as Situated Knowledges

Initiative: Corona Crisis and Beyond – Perspectives for Science, Scholarship and Society (beendet)

Bewilligung: 09.12.2020

Laufzeit: 1 Jahre 6 Monate

This project will investigate how public science discourses about Sars-CoV 2 support shifts in knowledge politics towards a new culture of objectivity. Against the backdrop of the empirical findings of a discourse analysis of relevant German media contributions and following theoretical Science & Technology Studies approaches to objectivity, the project will develop a new, "response-able" culture of objectivity as one of its key results.
