

Prof. Itamar Willner

Adresse*	The Hebrew University of Jerusalem Institute of Chemistry Department of Organic Chemistry Safra Campus 91904 Jerusalem
Fachgebiet	Chemie
Spezialgebiet	Field of study: chemistry, nanoscience
persönliche Website	http://chem.ch.huji.ac.il/willner/

Projekte

Design of photoenzyme materials based on light-activatable DNA-peptide supramolecular assemblies (extension)

Bewilligung: 01.06.2021

Design of [FeS]-cluster containing Metallo-DNAzyme subunits for modular redox-chemistry applications

Bewilligung: 25.06.2017

Metal controlled catalytic DNA and DNA-protein nanomachines

Bewilligung: 08.07.2010
